

HAMILTON ISLANDS

DESIGN RODOLFO DORDONI

Hamilton Islands is designed to be the natural offshoot of the Hamilton seating system and compared to the original project, comprises a combination of elements that can remain separate or be put alongside each other to obtain out-of-the-ordinary arrangements.

The arrangement depicted is just one example of the many different compositions possible with our seating systems. We suggest that you contact the nearest Minotti dealer to explore the options most suited to your needs and select the upholstery of your choice from the exclusive Minotti collection.
